SOLIDWORKS Community Access

For qualified educators, makers, hobbyists, military, students and sponsored organizations.

SOLIDWORKS Community Access Initiative

Dassault Systèmes SolidWorks Corporation Community Access Eligibility and Terms of Use Agreement

(Please read this agreement and ACCEPT or DECLINE its terms and conditions at the bottom of this page.)

"Community Access," "Student Access" or "Student Access product" refers to the Student Design Kit (SDK), the Student Engineering Kit (SEK), or the 60-Day Trial version of SOLIDWORKS® software.

Eligibility for SOLIDWORKS Community Access Licenses:

SOLIDWORKS Community Access licenses available at this website are provided only to:

- Students and Educators at academic institutions that have been authorized by Dassault Systèmes SolidWorks Corporation ("DS SolidWorks") to offer SOLIDWORKS Community Access; and
- Students and Educators who have received Student Access for trial purposes.
- SOLIDWORKS Community Access also includes makers, hobbyists, military, and sponsored organizations

You acknowledge that this agreement supplements and is governed by the Dassault Systèmes SolidWorks Corporation License Agreement (the "License Agreement"), which you have received with your download of SOLIDWORKS and which permits you to use SOLIDWORKS Community Access only for your own personal and academic purposes. You also confirm that (i) your academic institution (if applicable) has notified you of your eligibility to receive the appropriate SOLIDWORKS Community Access product (either SDK or SEK) and has provided you with either SDK-ID or SEK-ID for registration purposes; or (ii) a DS SolidWorks employee or a DS SolidWorks authorized value-added reseller (VAR) has provided you with a 60-Day Trial ID.

Any download and use of a SOLIDWORKS Community Access product by a person who is not eligible for such product shall constitute a violation of the License Agreement and applicable laws.

Please note that the SOLIDWORKS Community Access product obtained from this web site differs from other versions of SOLIDWORKS software in that:

- The license for such product will expire in accordance with the terms of your download card or your academic institution's particular agreement with DS SolidWorks, and
- Files created with SOLIDWORKS Community Access contain an 'academic-use only' watermark.

No Email with SEK Student Engineering Kit
Download Win7/Win8.1/Win10 64-bit
Click here for instructions if your browser security settings are blocking this download.
The links above download the SOLIDWORKS Community Access and Trial product requested.
This is a very large download of up to 8 GB: a broadband internet connection is required.
Download instructions:
Before proceeding with the download and installation:
Please back up any SOLIDWORKS data you may have generated from any prior use of other versions of SOLIDWORKS on your machine, then uninstall any prior versions of SOLIDWORKS before proceeding.
Please note: after you download and install the SOLIDWORKS Community Access product on your computer, older versions of SOLIDWORKS will no longer operate.
Make certain you have at least 20 GB of available disk space to download, install, and begin using the product
Please note, your download will fail if there is not enough disk space for this operation. Files are copied to a temporary directory location during download. Check your browser settings for the temporary directory location, and insure there is sufficient disk space available
After clicking the link, you will be asked to download the SOLIDWORKS Installation Manager (about 20 MB).
Please run the SOLIDWORKS Installation Manager, which will guide you through the complete download and installation process.
When the download is complete, click UNZIP then follow the installation instructions.
